PROFESSIONAL SUMMARY
Enthusiastic Computer Science graduate eager to apply strong foundations in Python, Data Structures & Algorithms, Machine Learning, and Web Development.

TECHNICAL SKILLS
Python, C++, Data Structures & Algorithms, Machine Learning, Scikit-Learn, Pandas, NumPy, HTML/CSS, SQL, Git

EDUCATION
B.E. in Computer Science & Engineering
VTU Belagavi | CGPA: 8.7/10 | Graduated: 2024

WORK EXPERIENCE
Software Engineering Intern | TechStart Solutions (Jan 2024 - Jun 2024)
? Assisted in developing predictive regression models with Scikit-Learn and Pandas.
? Implemented unit tests and resolved 30+ bug tickets in core Python application codebase.

KEY PROJECTS
Smart Attendance System via Face Recognition
? Built an automated attendance system using Python, OpenCV, and SQLite with 96% recognition accuracy.
? Designed clean user dashboard with Streamlit and Matplotlib.

CERTIFICATIONS & AWARDS
? Python for Everybody Specialization (University of Michigan / Coursera)
? HackerRank 5-Star Python & SQL Badges
